Awnings

2024 COLLECTION

Camping means TRIGANO!

*Since 1935, we've been there for all your camping trips,
helping you to enjoy unforgettable holidays.*

The countless possibilities and cherished moments offered by camping holidays have given us the drive to innovate, so that we can accompany you as best as possible as you set out

camping and enjoying the great outdoors. From tents and awnings, not to forget trailer tents, we endeavour to develop products that meet your needs.

A little history

The passion for camping was sparked in 1935

The story of this family-owned business dates back to 1935, when Edgard Trigano launched his company selling textile goods.

In 1936, in the wake of the victory of the Popular Front, French people were able to take paid annual leave for the first time. TRIGANO provided them with their first canvas tents, including the "Canadienne", a square blue and orange tent which sold by the millions.

The camping boom had begun and, ever since, TRIGANO has accompanied happy campers,

constantly inventing new products right through to today. The company has been able to develop technical expertise across all of its ranges, meaning that it can offer innovative products backed by experienced teams. Comfort, autonomy and layout: nothing is left to chance.

Our brand has become a symbol of the perfect holiday, the freedom to escape from it all, enticing millions of people to seek out new experiences and get close to nature.

*The fabric is the main material in your awning,
it's exposed on the front line against the weather.
It thus needs to be resistant and comfortable, so that it
can support your awning for many years to come.*

Here at TRIGANO, we take the utmost care in selecting our fabrics.
Each one has been carefully tested to give you peace of mind
and to make your life easier.

ROOF

TRIGAROOF I TEX 240

240 g/m² POLYESTER WITH SINGLE-SIDED ACRYLIC COATING

UV- and weather-resistant.

This material with anti-mould product is composed of:

- 1 exterior layer of water-repellent acrylic coating
- 1 interior layer of fabric which slows down condensation

TRIGAROOF I TEX 280

280 g/m² POLYESTER WITH SINGLE-SIDED ACRYLIC COATING

UV- and weather-resistant.

This material with anti-mould product is composed of:

- 1 exterior layer of water-repellent acrylic coating
- 1 interior layer of fabric which slows down condensation

TRIGAROOF I RESIST 420

420 g/m² WOVEN FIBRE WITH DOUBLE-SIDED ACRYLIC COATING

A laminated material that is waterproof and extremely weather-resistant.

TRIGAROOF I RESIST 480

480 g/m² WOVEN FIBRE WITH DOUBLE-SIDED ACRYLIC COATING

A laminated material that is waterproof and extremely weather-resistant. Lined with a light-blocking layer for living comfort.

TRADITIONAL AWNING WALLS

SARSON'S

OCCASIONAL USE

TRIGATEX I 180 & 220

180 AND 220 g/m² POLYESTER WITH ACRYLIC COATING

UV- and weather-resistant.

This material with anti-mould product is composed of:

- 1 exterior layer of water-repellent acrylic coating
- 1 interior layer of fabric which slows down condensation

TRIGARESIST I 340 450 & 480

340, 450 AND 480 g/m² WOVEN FIBRE WITH DOUBLE-SIDED PVC COATING

A laminated material that is waterproof and extremely weather-resistant.

Textured linen canvas exterior finish.

SARSON'S
- 3 -

OCCASIONAL USE

TRIGACRYL I 280

280 g/m² POLYESTER WITH ACRYLIC COATING

Resistant and breathable material with water-repellent treatment.

CAMPCLIMATE PRO

100% COTTON

A waterproof, natural and breathable material with rot-resistant treatment.

INFLATABLE AWNING WALLS

OCCASIONAL USE

CAMPTEX - OXFORD RIPSTOP 210D PU 5,000 MM POLYESTER

A durable all-weather fabric, Ripstop fibres stop rips and tears from spreading thanks to a thicker thread weft. The name "Oxford" indicates that the fabric is strengthened by a weft with double-thread warp. Its strong coating (5,000 mm PU) makes it fully weatherproof and UV-resistant. The thread's 210-denier thickness makes it particularly durable.

OCCASIONAL USE

CAMPTEX PRO - OXFORD RIPSTOP 300D PU 5,000 MM POLYESTER

A durable all-weather fabric, Ripstop fibres stop rips and tears from spreading thanks to a thicker thread weft. The name "OXFORD" indicates that the fabric is strengthened by a weft with double-thread warp. Its strong coating (5,000 mm PU) makes it fully weatherproof and UV-resistant. The thread's 300-denier thickness makes it particularly durable.

OCCASIONAL USE

CAMPTEX LIGHT - 190T 75D 3,000 MM PU POLYESTER

Lightweight material combining waterproofing and durability.

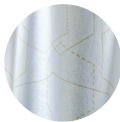

CAMPCLIMATE - POLYCOTTON

The fabric's weft has been designed to provide maximum breathability and considerably reduce the temperature in the living area. This fabric is lightweight, waterproof, durable, water-repellent and breathable. Its 260 g/m² weight and Ripstop weave make it incredibly resistant.

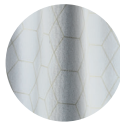

CURTAINS

SOLID WHITE

AZMINI

GRADIENT

ALL TRIGANO AWNINGS WITH TRADITIONAL FRAMES come with curtains to protect you from the sun during the day, and to provide privacy at night. There are three styles available to match your awning colour. (1 style per product, no choices possible).

In order to implement a certified environmental approach and manage the life cycle of our products, TRIGANO has joined forces with TEXYLOOP® to recycle 100% of our PVC canvases.

48 Technical Specifications packing

Guaranteeing longevity for your awning, TRIGANO frames are both durable and easy to pitch, they're fitted with jointed corners to ensure the awning perfectly fits to your trailer tent and the ground.

FIBRE FRAME

LIGHTWEIGHT AND NATURALLY RUST-RESISTANT FRAME

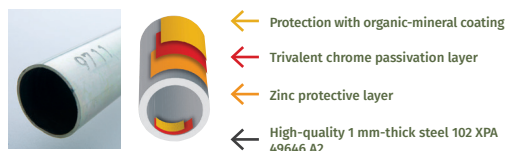

This highly durable, rust-resistant frame is lighter than a steel frame, making it easier to transport and handle. We recommend this frame for awnings used at the seaside, where the risk of rusting is higher, as well as for those stored in humid environments. Available as an option for our ETRETAT, TOUQUET and SICILE models.

STEEL FRAME

STAINLESS STEEL FRAME

TRIGANO stainless steel frames are designed to make your awning robust and stable, even in heavy rain, snow and extreme weather conditions. The 1 mm-thick steel has three layers of protection both inside and outside, for guaranteed longevity and solidity.

CLAMPING HANDLES

All of our frames come with clamping handles. Regardless of the temperature or tension applied, the handles reliably hold the frame in place.

TRIFIX®

The TRIFIX® system developed by TRIGANO guarantees an exceptionally secure attachment of your awning frame to your trailer tent. It also effectively protects your trailer tent from any contact with the frame.

AIR FRAME

After many years of research and testing, TRIGANO has revolutionised the principle of pitching awnings with its AIR CAMP technology. Perfectly suited to touring holidays and designed for lovers of simplicity, these new awnings only take a few pumps of air to pitch. This concept has nothing but positives: A compact design, 5-minute pitching, heavy-duty puncture protection and the same wind resistance as conventional frames.

So, how does it work?

The frame is replaced by inflatable arches. These inflatable frames, made with thermo-polyurethane (TPU), which is characterised by its high resistance to wear and tear, and its almost zero air porosity. The reinforced sleeves offer a high level of protection against puncturing. Each arch is inflated independently and can easily be replaced if necessary.

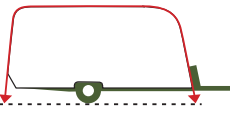

FOAM WEDGE
for securing the poles.
See p. 58

Determine your awning size according to the measurements of your trailer tent. Measure the profile of your trailer tent, from floor to floor and refer to the table. The TRIGANO double gusset enables to fit all trailer tent shapes, even the most profiled.

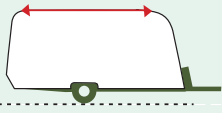

SIZE OF YOUR AWNING

There are 3 ways of determining the size of your awning or sun canopy, as we explain below:

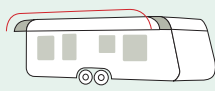

**CALCULATION FOR CLASSIC
AWNING SIZES**
Trailer tent dimensions >
awning size

**THE TWO OTHER
CALCULATION
METHODS**

**DIMENSION CALCULATION
FOR INFLATABLE AWNINGS
AND PARTIEL**

**DIMENSION CALCULATION FOR
VIP SUN CANOPIES**

6.65 m to 7.00 m > A	8.05 m to 8.40 m > E	9.45 m to 9.80 m > I	10.90 m to 11.30 m > M
7.00 m to 7.35 m > B	8.40 m to 8.75 m > F	9.80 m to 10.15 m > J	
7.35 m to 7.70 m > C	8.75 m to 9.10 m > G	10.15 m to 10.50 m > K	
7.70 m to 8.05 m > D	9.10 m to 9.45 m > H	10.50 m to 10.90 m > L	

DPS: DUAL PEGGING SYSTEM

There are two types of pegging available:

- The "exterior skirt" pegging option consists of staking pegs inside the awning and sliding the skirt outside the awning: this has the advantage of protecting the rubber rings from UV rays and the weather, hence extending their lifespan. This also keeps splashes away from the awning's walls.

- The "interior skirt" pegging option consists of staking the pegs outside the awning and sliding the skirt inside the awning: this makes pegging easier and provides a better seal when using a groundsheet.

With our new, innovative DPS system, which uses dual attachments, you can now choose between the two pegging methods to suit your use or preference.

WARRANTY

WARRANTY
2 YEARS | Covers all
manufacturing
faults

Your awning comes with a two-year guarantee for zip fastenings and a five-year guarantee for YKK fastenings, valid from the date of purchase, covering any manufacturing faults.

SUPPLIERS

Production margins may result in minor variations in weight, volume and dimensions. This applies for all references in our catalogue.

After many years of research and testing, TRIGANO has revolutionised how you pitch your awnings with its AIR CAMP technology.

Designed for touring holidays and lovers of all things simple, these new awnings are super quick to pitch in just a few pumps of air. This concept has nothing but advantages: a more compact design, quick set-up, protection against punctures, and greater wind resistance than traditional structures. The functioning of these awnings is built on the inflatable poles,

which replace the typical frames. Made with thermo-polyurethane (TPU), these inflatable structures stand out with their great resistance against wear and their almost airtight qualities. The reinforced sleeves guarantee boosted protection against punctures. Each pole can be inflated individually and easily replaced, if needed.

Choose a model that is easy to carry thanks to its inflatable arch. Discover the benefits of AIR CAMP technology, TRIGANO innovation, which simplifies installation and makes it considerably more compact. The front can be detached or rolled up to expand your living area. The two side doors with mosquito screens add a practical aspect to this awning, which measures 2.50 m in depth. To preserve your privacy after the sun sets, or during the day if needed, the windows are fitted with interior blinds. The LAGOON awning is extremely robust and features an ultra-resistant coated fabric. The Awning Canopy Kit lets you fit the awning onto the canopy of certain motorhomes and campervans.

SPECIAL FEATURES

- Exterior inflation point for fast access
- Pegging loop on the skirt
- Mosquito screens on the side doors
- 2 steel telescopic rear poles to fix the awning securely to the trailer tent

FRAME MADE IN FRANCE 

PARTIEL

SAISONS
- 4 -

Make the most of your camping holidays with this remarkable awning. The PARTIEL awning has been designed to fit the largest trailer tents as well as some mobile-home models. Combining classic style and unquestionable elegance, this all-season PVC awning has been designed for long-stay use, and it's able to take on extreme conditions. The large windows are fitted with external blinds enabling the windows to be completely closed and protected. The double-slope roof, designed from a single piece of material, facilitates the opening of the door and contributes to the perfect run-off for rainwater. The PARTIEL awning meets the resistance requirements for year-round use thanks to its frame with reinforced corners.

SPECIAL FEATURES

- 30 cm canopy
- Power grips
- Fixed walls with door on each side
- Mosquito screen with blind on the right side
- TRIFIX system
- Large wall mosquito screens
- Eyelets on skirt
- External blinds
- Front vents with covers
- Frame with reinforced corners

Designed for seasonal use, the SICILE awning provides the quality and comfort you'd expect from an exceptional trailer tent awning. Measuring up with an impressive depth of 2.70 m, the living space is perfect for entertaining in comfort and style. The multiple opening possibilities and the great layout flexibility enable you to optimally manage light levels and temperature, with the added bonus of being able to use the SICILE as a sun canopy in hot weather. The detachable, adjustable walls and detachable front are designed using TRIGATEX 180 fabric, which reduces the development of condensation. The canopy vents complete the ventilation system. The SICILE awning's front wall is cut high, making it easier for taller campers to get in and out.

TOUQUET

SALONS
- 3 -

The perfect combination of practicality and comfort... The TOUQUET awning is a hit with lovers of space and brightness. Measuring 2.70 m in depth and featuring wide detachable fronts, the large living space always proves popular with campers. Its design features PVC in modern colours, a steel frame and storm tensioning, enabling it to withstand all weather conditions. Even after holidays under the shade of the trees or by the seaside, this awning shows no weakness thanks to its stain-proof coating which protects it from pine resin, not to mention its resistance to sea spray. The TOUQUET is one of the best awnings offering exceptional ventilation, thanks to its central vent and two side mosquito screens panels.

SPECIAL FEATURES

- 30 cm canopy

Pegs + corner pegs - Pair of curtains

The OSLO all-season awning is an independent awning with a vehicle adaptation porch. It's an essential companion for lovers of motorhomes and campervans who are looking to enjoy travelling all year round, regardless of the weather conditions.

Made with high-quality materials (TRIGAROOF TEX 240, TRIGATEX 180 and TRIGARESIST 340), the OSLO resists all weather conditions. The steel frame (optional fibreglass frame, lighter and more resistant over time) ensures exceptional resistance and makes pitching a simple and intuitive process, making the pitching/de-pitching part of your trip easier than ever before.

SPECIAL FEATURES

- Detachable side panel and front
- Perfect for motorhomes, campervans, etc.
- Fitted with a porch to separate the interior of the awning from the vehicle
- Available in 2 adjustable heights, which means that the model can adapt to all vehicles on the market

1 | MULTI-PURPOSE SHELTER

M/A908J15

Multi-purpose shelter: summer kitchen, storage space, etc. Robust PVC, tensioning guy lines. Clear windows and mesh mosquito net ventilation. Blinds.

HEAVY-DUTY PVC - 510 g/m²

WINDOWS 2 PVC windows with blinds

1 mosquito screen window with blind

FRAME ø 20 mm galvanised steel

ENTRANCE DOOR can be raised

COMES WITH CARRY BAG

2 | KITCHEN SHELTER

A595E02

Great air circulation. Rear window with mosquito screen and blinds.

ROOF PVC-coated canvas

WINDOWS Clear, shaded

FRAME ø 20 mm galvanised steel

ENTRANCE DOOR awning with 2 poles

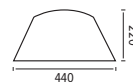

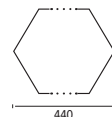

+ PRODUCT ADVANTAGES

VERSATILE

Outdoor kitchen, storage space... fitted with blinds, clear bay windows, and mosquito screens

+ PRODUCT ADVANTAGES

Window with mosquito screen or blind, optimal air circulation, weather protection

3

3 303000 023039

Comes with pump

Comes with 4 removable panels

4

3 303000 017809

3 | GAZEBO SHELTER

M/A891T03

Featuring generous floor space, this shelter is ideal for housing your chairs and tables. The two mosquito screen doors let you enjoy the shelter while keeping insects out. Quick pitching and easy to transport thanks to its carry bag.

ROOF 190T/75D polyester, 1,000 mm PU
SLEEVES Oxford 210D polyester, 500 mm PU
FRAME 3 × ø 11 mm fibreglass poles and 6 × ø 19 mm steel tubes
ENTRANCE 2 double mosquito screen doors
COMES WITH CARRY BAG

+ PRODUCT ADVANTAGES

VERSATILE

Outdoor kitchen, storage space... fitted with blinds, clear bay windows, and mosquito screens

4 | INFLATABLE GAZEBO

M/A949Y01

Pitched and ready to use in the blink of an eye thanks to its inflatable frame. This gazebo comes with 4 removable walls in order to offer protection from the wind or sun, or to create a private dining space. Its generous floor space is great for getting everyone together.

CANVAS Polyester 190T PU 2,000 mm W/R
COVERS Polyester 150D PU 2,000 mm W/R
FRAME ø 100 mm inflatable tubes
WEIGHT 8.5 kg

+ PRODUCT ADVANTAGES

Quick and easy pitching and take-down, AIR CAMP inflatable frame
 4 removable walls, large floor space

Scan to watch the pitching video
