## DYNAMIC

A stable and compact chair with an ergonomically shaped back and seat. It can be folded to less than 9cm thickness and thanks to its special design, 4 chairs can be stacked to just 30cm tall. The frame of inside double reinforced anodised oval aluminium tube - makes the chair not only very strong but also very light. Thanks to the 10-position adjustable extra wide armrests, the chair can be used from comfortable-chair to an almost horizontal relaxed recliner (using optional leg rest). Available singly or 4 per outer
