

Product info LevelCheck

Gas cylinder level indicator

February 2012 edition

GAS SUPPLY

LevelCheck is a mobile filling level indicator for all (propane / butane – LPG) steel or aluminium gas cylinders with a diameter of 200 to 350 mm. The device recognises whether there is liquefied gas in the cylinder at the measuring point and indicates this.

Design

- Silver-coloured upper shell
- On/Off switch for torch
- Status LED in the measuring head
- Measuring head is transparent and ribbed
- Black plastic lower shell
 - rounded underneath (with tilt protection) and ribbed
- Openings for standard hand straps

Benefits

- Suitable for all standard steel or aluminium gas cylinders
 - with a diameter of 200 to 350 mm
- Reliable measurement by means of ultrasonic
- Easy to use
- With integrated LED torch
- Durable plastic casing
- Battery under-voltage display
- Retail-conform, multilingual packaging
- Ideal for camping and recreational activities
- Approved for all EU countries
 - CE symbol
 - WEE registration and identification

Function

- Measurement by means of ultrasonic
- Measurement is triggered by horizontal connection to the gas cylinder
- LevelCheck recognises whether there is any liquefied gas in the cylinder at the measuring point
- Status LED (green / red / orange)
 - green – Gas
 - red – No gas or incorrect measurement
 - orange – Measuring process (confirmed by beeping tone)
- Under-voltage display

Note:

The device is not suitable for tank gas cylinders and gas tanks that can be filled.
Welded joints or soiled/rusty gas cylinders can lead to inaccurate measurements.

Technical data

Power supply

block battery 9 V

Dimensions in mm

135 x 35 x 30

Weight (incl. battery)

approx. 100 g

Article number

50500-01

LevelCheck
incl. battery
LevelCheck
6 units in a sales box
(Counter display)

50500-51

Date

Market launch

May 2012
